

CAPACITIES: VALENT VX SERIES

AIRFLOW CAPACITIES											
	Nominal airflow (cfm)										
	0	1,000	2,000	3,000	4,000	5,000	6,000	7,000	8,000	9,000	10,000
VX	VX-112 800–5,750										
			VX-212 2,250–9,500								
VXE	VXE-112 1,000–4,400										
				VXE-212 3,300–8,000							

Airflow ranges are based on packaged DX cooling; indirect gas heating; 100% outdoor air; 1.5 in. wg supply external and 0.5 in. wg return air static pressure.

REFRIGERATION CAPACITIES										
	Nominal tonnage									
	5	7.5	10	12.5	15	17.5	20	25	30	
Packaged air cooled	VX/E-112									
						VX/E-212				

HEATING CAPACITIES												
	Input capacity (MBh)											
	100	150	200	250	300	400	500					
Indirect gas	VX/E-112											
					VX/E-212							
	Electric capacity (kW)											
	15	20	30	35	40	50	60	80	90	100	110	120
SCR electric	VX/E-112											
				VX/E-212								

Electric heat sizes shown do not account for unit voltage.
