

CAPACITIES: VALENT VX SERIES

AIRFLOW CAPACITIES																						
	Nominal airflow (cfm)																					
	800	900	1,000	1,500	2,000	2,500	3,000	3,500	4,000	4,400	5,000	5,750	6,000	6,500	7,000	7,500	8,000	8,500	9,000	9,550		
VX	VX-112																					
		VX-212																				
VXE	VXE-112																					
		VXE-212																				

Airflow ranges are shown with packaged air cooled DX refrigeration and do not take into account actual design loads.

REFRIGERATION CAPACITIES										
	Nominal tonnage									
	5	7.5	10	12.5	15	17.5	20	25	30	
Packaged air cooled	VX/E-112									
						VX/E-212				

HEATING CAPACITIES													
	Input capacity (MBh)												
	75	100	150	200	250	300	400	500					
Indirect gas	VX/E-112												
						VX/E-212							
	Electric capacity (kW)												
	15	20	30	35	40	50	60	80	90	100	110	120	
SCR electric	VX/E-112												
						VX/E-212							

Electric heat sizes shown do not account for unit voltage.
